Filed: 04/08/04

For: FAST MULTI-LINE LASER
CONFOCAL SCANNING
MICROSCOPEAttorney
Docket No.: 9345/91883

) Art Unit: 2872

) Confirmation No. 9215

) Examiner: Lee A. Fineman

) I hereby certify under 37 C.F.R. 1.8 that this paper is being
transmitted via facsimile pursuant to 37 C.F.R. 1.6(d) to the
U.S. Patent and Trademark Office, (571) 273-8300, on the
date indicated below.) 
Date: January 3, 2006INFORMATION DISCLOSURE STATEMENTCommissioner for Patents
Box IDS- NON FEE
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Pursuant to 37 C.F.R. §1.97, a list of documents is disclosed on the attached Form PTO-1449 that may be material to the examination of this application. Listed Documents are U.S. patents, foreign patents and/or published papers that are cited and discussed in the application, and are enclosed herewith. It is submitted that no fees are due in connection with this Information Disclosure Statement because it is being submitted prior to the issuance of the first Office Action.

Documents for which the supplied date of publication lists the year of publication without the month were published sufficiently earlier than the effective U.S. filing date and any foreign priority date, so that the particular month of publication is not in issue. Pursuant to §609 of the MPEP, it is understood that the month of publication is not required when the particular month of publication is not in issue.

No inferences should be drawn that the attached list represents a comprehensive investigation, or that any material disclosed is equivalent to the subject invention. In addition, none of the documents that have publication dates prior to the priority date of the above application anticipate the invention in this application.

The cited document(s) disclose numerous specific features. There has been no attempt to list each and every feature disclosed by each document. The Examiner is requested to review the document(s) and determine the extent of the materiality of the document disclosures with respect to the present invention.

The discussion of any art and the citation of any document(s) herein is not to be construed as an admission that the art or document disclosure is necessarily within the invention field of endeavor, that the art or document disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that the art or document disclosure is otherwise necessarily prior art as defined by the patent law with respect to the instant invention and application.

Also, there is reserved the right to later set forth how the instant invention is distinguished over the disclosure of any document or other art, including the disclosures of the art and document(s) recited herein, that may be cited by the Examiner in rejecting a claim in the instant patent application. The recitation herein of the art and document(s) is not to be construed as an assertion that more pertinent art could not possibly be in existence.

Respectfully submitted,

By: 

Jeffrey W. Salmon
